Quilt Index Core Fields

In the course of developing the *Quilt Index Comprehensive Fields*, an extensive list of Quilt Index information categories, and relating them to the needs and contents of each pilot site's particular collections, we have developed the *Quilt Index Core Fields*. These fields are the most often used for searching, sorting, and display in the Quilt Index. They are highlighted in green in the Comprehensive Fields. These are the lowest common denominator that we would hope to satisfy for any quilt object or collection to be submitted to the Quilt Index.
